Comments

“ Jean was one of the most determined and amazing people I have ever met. She loved to laugh and had a wonderful sense of humor. She had the special ability to make you feel good and always had a kind word to say even if she didn't know you! Jean welcomed you with a smile and loved to talk about family, friends and her adventures in life. She got to know you and would ask about your family as if they were her own. She always wanted to be a part of things and wasn't afraid to try something even if it was a little difficult for her. I'm very proud to have had the chance to know her and call her my friend. It is a great honor to have been a small part of her life, she was very special to me and will always remain a part of my life. She is very missed!

“ Please accept our heartfelt condolences in the passing of Jean. She has been such a precious part of our Community at Cedarhurst for over 5 years and will be greatly missed by everyone. She always had a smile on her face and brought fun & joy to every gathering, even when she felt bad. We are so very sorry for your loss (and ours). Our prayers are with the entire family at this time.
